

Referring to CURE 4 THE KIDS FOUNDATION

At Cure 4 The Kids Foundation (C4K), we are pleased to accept all major insurances in Nevada. Please note that insurance plans can vary, and some may require the Pediatrician or Primary Care Provider to submit a referral through their designated portal. We are committed to ensuring a seamless referral experience for both providers and patients.

This guide highlights the essential steps and insurance considerations to ensure your referrals are processed smoothly. To begin the referral process, ***please fax the documents listed below to our main fax line: (702) 732-1080.***

Required Documents for All Referrals:

- Patient Demographics (including insurance & current contact information)
- Most recent progress notes with provider's clinical impression
- Pediatrician/PCP Referral*
- Reason for referral (including suspected diagnosis)
- Lab results from the last 3 months (or most recent)
- Discharge Paperwork (if applicable)

Additional Requirements for Metabolic Genetics or Rheumatology Referrals:

- All ordered imaging
- Genetic testing results + the referring provider's suspected diagnosis and clinical reasoning
- Growth Charts and birth history

*** Note:** Many insurers require referrals from the patient's Pediatrician/Primary Care Provider—please verify plan requirements.

As a courtesy, we'll make every effort to contact you if a referral is denied by insurance or if any information is missing that could impact the patient's account. We kindly ask that the referring office follow up with the insurance company for any denials and resubmit the referral through the appropriate channels.

Information for Referral Submission:

Alliance for Childhood Disease
DBA Cure 4 The Kids Foundation
NPI: 1013292689 Tax ID: 26-0286469

*We understand the referral process can be challenging at times.
If you're unsure, feel free to give us a call — we're here to help!*
